If you're already a Sol-Ark®; customer and need assistance with your product, please use the form below to contact our technical support team. Contact the Sol-Ark®; sales team or technical support team about our residential and commercial energy storage solutions. Contact us today!

What is a 40 kW solar system?

These 40 kW size grid-connected solar kits include solar panels, DC-to-AC inverter, rack mounting system, hardware, cabling, permit plans and instructions. These are complete PV solar power systems that can work for a home or business, with just about everything you need to get the system up and running quickly.

How much does a 40kW Solar System cost?

Buy the lowest cost 40kW solar kit priced from \$1.15 to \$1.90 per watt with the latest, most powerful solar panels, module optimizers, or micro-inverters.

How much space does a 40 kW solar system need?

A 40 kW Solar Kit requires up to 2,200 square feet of space. 40kW or 40 kilowatts is 40,000 watts of DC direct current power. This could produce an estimated 3,000 to 4,000 kilowatt hours (kWh) of alternating current (AC) power per month, assuming at least 5 sun hours per day with the solar array facing South.

Sol-Ark combines advanced technology with exceptional reliability to provide you with a seamless and efficient solar energy system. With its all-in-one design, simplify your installation and ...
