Do you need an off-grid solar system in Canberra?

One of the biggest advantages of having an off-grid solar system in Canberra, ACT is reduced energy costs, as rural consumers are often asked by utility providers to pay excessive grid connection fees. If your building can't connect to the local power grid, an off-grid system is exactly what you need.

What is a complete off-grid Solar System?

The Complete Off-Grid Power Systems are the most versatile and popular of our products. This off-grid solar system comfortably powers a typical Australian home and property. The highest quality stand-alone solar system - no compromise on your lifestyle. No compromises. Australia's largest and most trusted off-grid power provider.
