Do you need a portable power supply in Ireland?

In an era where power outages are unpredictable from storms in Ireland, having a reliable backup portable power supply for your home becomes more important. Ensure the continuity of your daily life and safeguard essential appliances with a robust power solution.

Why do you need a portable power supply?

Ensure the continuity of your daily life and safeguard essential appliances with a robust power solution. Equip your home with a portable power supply that caters to the diverse needs of your appliances. From kitchen essentials to electronic gadgets, enjoy uninterrupted functionality during unexpected power interruptions.

What is a power supply used for?

A power supply is used to reduce mains or three phase electricity, often at 240 Vac or 440 Vac down to a voltage that is usable, such as 12 Vdc. The PSU also converts the current rating, in the form of AMPS, to a level that is safe for the device that is to be powered. What is the difference between the types of power supplies?

Which portable power station should I buy?

If you want a portable power station that's lighter than our upgrade pick, often costs less, and adds a small light, and you don't mind that it has less power, a single handle, and fewer outlets and charging ports: Get the Jackery Explorer 880. It weighs 21.8 pounds, and has an ergonomic handle on top and a small light built into the side.

All DC Power Supplies / Lab Power Supplies on sale. We also take purchase orders and can provide special school, government and corporate pricing.
