---

\* This datasheet provides information about parts that are RoHS-compliant and / or parts that are non RoHS-compliant. For example, parts with lead (Pb) terminations are not RoHS-compliant. ...

Designed for mobility and fast deployment, our foldable solar power containers combine solar modules, storage, and inverters into a single transportable unit. Ideal for emergency scenarios, ...

A full-fledged analog circuit simulation engine, schematic editor and waveform viewer with outstanding convergence. Create your circuit with any component model or use our best in ...

Description: N-channel enhancement mode TrenchMOS transistor. ...

Advanced HEXFET™; Power MOSFETs from International Rectifier utilize advanced processing techniques to achieve extremely low on-resistance per silicon area.

The IRFZ48N Datasheet is essentially the bible for this particular MOSFET. It provides a comprehensive overview of its electrical characteristics, performance parameters, ...

The IRFZ48/IRFZ48N is a classic N-channel MOSFET, great for switching applications in power supplies, motor controllers, inverters, or audio amps where you need to handle decent current ...

With a drain-to-source voltage of 55V and a current capacity of 64A, it is ideal for high-power applications, including motor drivers, switching power supplies, inverters, and battery ...

51760-10113209BBLF is an The connector;The connector manufactured by Amphenol. Download the 51760-10113209BBLF datasheet to learn more about specifications, pins, packaging and ...

# IRFZ48N Inverter
