Turkish renewables company Fortis Energy has contracted Pomega Energy Storage Technologies to install a 62-MW/104-MWh battery at the site of a 80-MWp solar park ...

The proposed project will combine wind, solar, battery energy storage and green hydrogen to help local industry decarbonise. It includes an option to expand the connection to 1,200MW. [pdf]

Technological advancements are dramatically improving solar storage container performance while reducing costs. Next-generation thermal management systems maintain optimal ...

Engineered to complement solar folding containers, our lithium-ion battery systems deliver dependable power storage with fast charge/discharge capabilities. Their modular architecture ...

The scheme, designed to lower home battery costs, will be adjusted to ensure fairness across various system sizes and will be administered through the SRES, ensuring ...

North Macedonia"s Bogdanci Battery Park, launched in Q2 2024, uses Tesla Megapacks to store wind energy. Fun fact: Its storage capacity equals 3 million smartphone ...

In a recent landmark auction, the North Macedonian government received 44 bids for battery storage projects, totaling an impressive 4.2 GW of capacity. This ambitious move is ...

Solar parks like the 50 MW plant near Negotino now require battery storage tanks capable of 4-hour discharge cycles. The average project size has grown from 2 MWh to 15 MWh systems ...

Turkish renewables company Fortis Energy has contracted Pomega Energy Storage Technologies to install a 62-MW/104-MWh ...
