---

Rapid growth in renewable energy deployment in Mexico could generate high levels of investment, increase energy access, reduce costs to consumers, and--together with other ...

Mexican President Claudia Sheinbaum has unveiled a \$23.4 billion plan to expand the national electricity system, targeting 13.02 GW of new capacity by 2030, including 4.67 ...

An overview of the country's renewable power market, highlighting installed capacity trends, generation trends, and installed capacity split by various renewable power ...

The Mexican Ministry of Energy (SENER) has published the results of its latest call for renewable power projects, awarding 3.3GW of renewable energy capacity, of which solar ...

Historically, the main applications of solar energy technologies in Mexico have been for non-electric active solar system applications for space heating, water heating and drying crops.

It's worth noting that Mexico enjoys exceptional solar potential: the country receives between 5 and 6 kWh/m<sup>2</sup> of solar radiation ...

Considering Mexico's vast solar and wind energy resources, including offshore wind power potential in the Pacific Ocean and the Gulf of Mexico, it's a shame that these clean, free ...

Overall, Mexico's power sector is evolving through sustained renewable expansion led by solar and wind, complemented by gas-based generation to support system balance.

It's worth noting that Mexico enjoys exceptional solar potential: the country receives between 5 and 6 kWh/m<sup>2</sup> of solar radiation per day across most of its territory. This ...

The Mexico Solar Photovoltaic (PV) Market is expected to reach 13.94 gigawatt in 2025 and grow at a CAGR of 14.43% to reach 27.35 gigawatt by 2030. Comisi&#243;n Federal de ...

Mexican President Claudia Sheinbaum has unveiled a \$23.4 billion plan to expand the national electricity system, targeting 13.02 GW ...

Private companies will invest US \$4.75 billion to build 20 renewable energy projects across 11 Mexican states, Energy Minister Luz Elena Gonz&#225;lez announced ...

The Mexico Solar Photovoltaic (PV) Market is expected to reach 13.94 gigawatt in 2025 and grow at a CAGR of 14.43% to reach ...
