The IAEA assists its Member States in using nuclear science and technology for peaceful purposes and facilitates the transfer of such technology and knowledge in a ...

China launches the KUN 24-AP, a nuclear-powered vessel that promises to reduce emissions and transform global shipping. Learn how this logistics innovation from China puts ...

Penn State and Westinghouse are pioneering microreactors (tiny "nuclear batteries" the size of a container) poised to power villages, data centers, and Mars bases.

It is designing a 1 MW Unity Nuclear Battery that fits in a 20-foot shipping container and which is a transportable, factory-built, plug ...

Nuclear energy is still providing the world with a quarter of its low-carbon power and supporting the roll out of intermittent renewables like solar and wind. In future we will see ...

Nuclear energy companies are trying to shrink reactors to the size of shipping containers in a bid to compete with electric batteries as a ...

The US military could soon be storing nuclear weapons in mobile shipping containers. Newly-designed 20-foot vaults have been designed to secure critical and sensitive ...

The US military could soon be storing nuclear weapons in mobile shipping containers. Newly-designed 20-foot vaults have been ...

Nuclear energy was in the spotlight in 2024 as the IAEA and the Government of Belgium organized the world's first Nuclear Energy Summit, and the IAEA raised its ...

Nuclear power is a low-carbon source of energy. In 2018, nuclear power produced about 10 percent of the world's electricity. Together with the expanding renewable energy ...

The reactor, small enough to fit in shipping containers, is expected to produce energy by 2028 and can operate for three years ...

The reactor, small enough to fit in shipping containers, is expected to produce energy by 2028 and can operate for three years without refueling. Rolls-Royce and Northrop ...

What is nuclear fission? Nuclear fission is a reaction where the nucleus of an atom splits into two or more smaller nuclei, while releasing energy. For instance, when hit by a ...

The IAEA fosters the efficient and safe use of nuclear power by supporting existing and new nuclear programmes around the world, catalysing innovation and building capacity in ...

Sandia National Laboratories has developed a mobile, high-security vault to safeguard nuclear weapons in temporary or remote locations where permanent facilities aren't ...

The IAEA is the world's centre for cooperation in the nuclear field, promoting the safe, secure and peaceful use of nuclear technology. It works in a wide range of areas ...
