---

Short-term headwinds will drive modest contractions in 2026-2027, yet Wood Mackenzie's latest forecast projects nearly 93 GW of new storage through 2029, cementing ...

From the UK to the UEA and USA to Australia, Energy Digital Magazine runs through 10 of the most impressive energy storage projects worldwide

Latest news on energy storage projects, BESS, capacity expansion, and regulatory updates across Europe, US & Canada, Latin America, and Asia Pacific. Discover how energy ...

US energy storage set a Q1 record in 2025 with 2 GW added, but looming policy changes could put that growth at serious risk.

From the UK to the UEA and USA to Australia, Energy Digital Magazine runs through 10 of the most impressive energy storage projects ...

Here are ten notable innovations taking place across different energy storage segments, as highlighted in GlobalData's Emerging ...

Here are ten notable innovations taking place across different energy storage segments, as highlighted in GlobalData's Emerging Energy Storage Technologies report.

A quick look at projections for energy storage development, including costs and types of long-duration technologies in demonstration.

The U.S. has 431 operational battery energy storage projects, 8 using lead-acid, lithium-ion, nickel-based, sodium-based, and flow batteries. 10 These projects totaled 27 GW of rated ...
