----

What is a 40 ft shipping container?
40? Shipping Container is the only container that provides an easy means of entry into the building. 40? High Cube Open Side Container has side-open doors on one end and is a very versatile option for construction sites and manufacturing facilities with a lot of equipment to move around.

Who owns a container terminal?
Port authorities have jurisdiction over most U.S. container terminals,although some container terminals are owned or leased by private interests. Private bulk terminals are normally outside public port authority jurisdiction although they are still subject to U.S. Coast Guard and Federal regulation.

What is the difference between a 40 ft & 10ft shipping container?
40? High Cube Open Side Container has side-open doors on one end and is a very versatile option for construction sites and manufacturing facilities with a lot of equipment to move around. 10 ft' shipping container is a smaller option for transport.

Are folding containers the 'dream of the shipping industry'?
Last year, Jim Hagemann Snabe, chairman of the world's largest shipping line, A.P. Moller-Maersk A/S, referred to folding containers as the "dream of the shipping industry". In the meantime, consumer-goods producers including Procter & Gamble Co. have been testing the innovative technology.
