-----

Revac is currently building a solar park with 1,700 solar cells to supply its own production premises with sustainable, short-distance electricity. The ...

The company's focus on large-scale projects and innovation has established it as a leader in the Norwegian solar market. Looking ...

Whether for EVs or energy storage, Norway has always had ideal conditions for battery growth: renewable energy in the form of hydropower, strong government financial ...

The company's focus on large-scale projects and innovation has established it as a leader in the Norwegian solar market. Looking ahead, Energeia plans to expand its solar and ...

When exploring the solar battery industry in Norway, several key considerations are essential. The country has a strong commitment to renewable energy, supported by government ...

After setting impressive EV battery records, Norway has turned its focus to an even larger market: batteries for stationary energy storage - a market expected to reach EUR 57 billion by 2030. ...

In "Norway's Battery Strategy", we discuss the battery value chain in more detail and present ten actions for sustainable industrialisation, which in aggregate should be powerful enough to ...

(Bloomberg) -- Norway's Morrow Batteries AS is poised to begin production of lithium-iron phosphate cells at its factory in southern ...

Revac is currently building a solar park with 1,700 solar cells to supply its own production premises with sustainable, short-distance electricity. The new Revac plant consists of a 1 MW ...

Picture lithium batteries as the Swiss Army knives of energy storage - compact, versatile, and surprisingly powerful. In Oslo's context, they're the backbone of systems storing ...

Norway has a unique opportunity to serve Europe with high quality, sustainable and ethically produced batteries, but we must act fast as other countries are building renewable energy ...

October 21, 2025 - Elinor Batteries has been awarded the contract to supply battery solutions for three large-scale battery parks in Southern Norway, boosting energy storage capacity, ...

(Bloomberg) -- Norway's Morrow Batteries AS is poised to begin production of lithium-iron phosphate cells at its factory in southern Norway, looking to learn from the failures ...
